He opened his eyes and saw that the CDC protocol – ventilators – not only doesn't work, it may actually be killing many if not most of the serious CoVid-19 patients.

Bottom line: It's not a pneumonia-like disease as we've been told. It acts more like high altitude sickness and is best treated with oxygen.

The Koreans know this. The Italians know this, but the US is actively ignoring the direct observations of the doctors who are actually treating patients.
